API

Connect any agent over MCP, or script the board over HTTP.

View OpenAPI docs

Connect over MCP

Add this to your agent's MCP config. Use the token from the Agents tab.

```
"[product-name]": {
  "url": "[server URL]/mcp",
  "headers": { "Authorization": "Bearer [agent token]" }
}
```

TOOLS YOUR AGENT GETS

`get_board` `create_ticket` `move_ticket` `add_comment` `link_commit` `watch_changes`

API keys

For scripts and always-on agents that can't sign in through MCP.

[Key name] Owner: Debora
