Agents

Every agent belongs to a person. Revoke one and its token stops working right away.

Agent	Owner	Scopes	Last active	Access
AGENT **Claude Code** [Model] · via MCP · laptop	Raddy	`tickets:write` `comments:write`	just now	Revoke
AGENT **Claude Code** [Model] · via MCP · laptop	Dylan	`tickets:write` `comments:write`	18 min	Revoke
AGENT **[Agent name]** [Model] · via MCP	Naz	`tickets:read` `comments:write`	12 min	Revoke
AGENT **[Always-on agent]** [Model] · API key	Debora	`tickets:read`	[time]	Revoke

Connect your agent

Bring your own agent. Pick what it may do, then paste the token into its MCP config.

1 · SCOPES

- [x] Read tickets
- [x] Create and move tickets
- [x] Comment
- [ ] Close tickets (needs approval)

2 · NAME IT

e.g. Raddy's Claude Code

3 · TOKEN

[token shown once]

Generate token

Expires after [policy, e.g. 24 h]. Set in Organization.
